Sir/Madam:

**REMARKS**

**THE CLAIMS**

As previously indicated claims 65 to 87 were pending in this application prior to the September 28, 2004 Amendment. That amendment canceled claims 65-80 and 86-87, amended claims 81-85, and added claims 88-101. No further amendments to the claims are being made hereby. Accordingly, claims 81-101 remain active in this case.

The indication by the examiner that crossings and underlining must be added is not understood since there are no corrections being made by the amendment. The present claims, as those already on file, are in compliance with the Rules.

### **THE NON-COMPLIANCE NOTICE**

On the March 25 and June 20, 2005 Notices of Non-Compliance the examiner requested under 37 CFR 1.121 that a full copy of all claims in this application.

The applicant previously attached, and is once again attaching the requested claims in a form that is in compliance with the Code requirements. No corrections, deletions or additions are being undertaken and, thus, no crossings or underlinings appear to be required.

### **GENERAL COMMENTS**

The pending claims are believed by the applicant to be fully supported by the specification as filed, and the original claims, and in compliance with the Rules. These claims are believed not to introduce new matter into this application.

In view of the foregoing amendments and remarks, this application is believed to be in condition for examination on the merits, and for allowance.
